DRUG PROVING 2025

Dr. G.D.POL Foundation, YMT Homoeopathic Medical college is conducting Drug Proving Research Project in collaboration with Central Council for Research in Homoeopathy, New Delhi & Regional Research Institute of Homoeopathy, Navi Mumbai.

On 3rd may 2012 New Drug Proving Program was initiated at YMT Homoeopathic Medical College & Hospital & committee of Drug Proving was formed.

CCRH is doing research study "Homoeopathic drug proving" Randomized double-blind placebo -controlled trial.

Drug Proving is a research program of the CCRH- Central Council for Research in Homoeopathy. CCRH has been conducting drug proving since its inception in 1978 & more than 95 drugs have been proved so far.

Over the years the drug proving program of CCRH has evolved into highly scientific program, monitored & regulated by experts & regulatory authorities. The protocol of the study has been developed in confirmation with International & National guidelines for research, Ethic & drug proving.

Drug Proving is conducted on Healthy human volunteers (provers). The volunteers are enrolled after a detailed medical examination (termed as PME- Pre-trial Medical Examination). This examination includes a detailed screening & Hematological & Biochemical Investigations, ECG, chest X-ray & ultrasonography.

Once enrolled in the study, each volunteer is assigned a code number. Drug substance to be taken is coded at CCRH headquarters and is received at the Proving Centre.

Before enrollment of volunteer, a duly signed consent form is taken from all volunteers. After pre-trial examination a batch of 15-20 provers is prepared & coded drug is given to each prover & if any symptoms appear after taking the dose, they are recorded and day book proforma is prepared by prover & proving associate also. It is analyzed in homoeopathic case taking proforma and if symptom any appears it is recorded and after disappearance of all the symptoms, 30 days wash out period is considered and then the next quota is given to prover. After all quota are over, analysis investigator sends all report to CCRH. Then post- trial

examination of all prover is sent to CCRH. After this monthly attendance of prover is send to center. In this Research programme renumeration to prover is given according to the presentee & certificate from CCRH is also provided after completion.All the information collected in this study is kept strictly confidential except as may be required by law of land. From 2013 onwards, we have completed the proving with 10 proving batch. Each batch consists of 14-15 provers.

In the year 2024-2025, we have almost completed the post-trial examination of volunteers for 11th, 12th and 13thbatches. And we have also completed screening and pretrial examination of next batch and started with drug proving (observation after drug intake period) of new batch (code -149). Symptoms if any are being updated on the portal of CCRH by the prover as well as the proving associate. Regular updates and meetings are conducted as required. In 2023-24 some provers completed with drug proving so we started the post-trial examination of those provers. Other provers proving is ongoing.One more batch of 2025 is under pretrial examination.

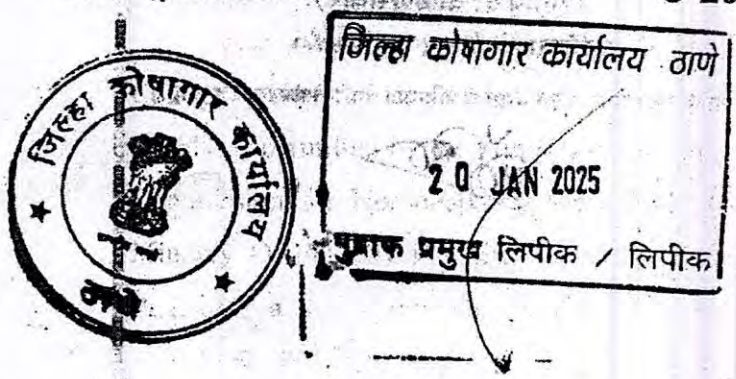

Due to Administrative changes, Chairman of Drug Proving committee is Dr. Seema Dandge. Following members are included in the committee-

SR. NO	NAME OF MEMBERS	DESIGNATION	PREESNT POST
1	Dr. Seema Dandge	Chairman	Principal & HOD of Anatomy
2	Dr. R. S. Bawaskar	Officer Incharge	Officer Incharge (RRIH)
3	Dr. Birendra Singh Rawat	Proving Master	Proving Master (RRIH)
4	Dr. Swati Bhagwat	Member	HOD of Department of HMM
5	Dr. Neena Menon	Special Invitee	Professor of Department of HMM
6	Dr. Neelam Wayal	Proving Associate	Associate professor Department of HMM
7	Dr. Supriya Bazaz	Member	Assistant professor in the Department of Anatomy.

Institutional Area, Opp. D-Block, Janakpuri, New Delhi – 110058, through its Director General (hereinafter referred to as 'CCRH' "the First party", which expression shall unless repugnant to the context or meaning thereof be deemed to mean and include its successors and assigns) of the One Part and Dr. G. D. Pol Foundation YMT Homoeopathic Medical College – Hospital & PG Institute [YMT HMC-H & PGI], Kharghar, Navi Mumbai, through its Principal/Registrar (hereinafter referred to YMT HMC-H & PGI as "the second party" which expression shall unless it be repugnant to the context or meaning thereof be deemed to mean and include its successors and assigns) of the Other Part.

Whereas the first party is having its institute at the Regional Research Institute of Homoeopathy, Plot No 38 & 39, Sector-18, Kharghar, Navi Mumbai, Maharashtra -410210 on behalf of CCRH and intends for collaborative research in Drug Proving project with second party.

And whereas the second party, Dr. G. D. Pol Foundation YMT Homoeopathic Medical College – Hospital & PG Institute affiliated to Maharashtra University of Health Sciences, Nashik, is permitted by the Ministry of Ayush, Government of India, New Delhi, under National Commission for Homoeopathy, New Delhi (A Statutory Body of Govt. of India under the Ministry Of AYUSH) is situated at Institutional Area, Sector 4, Kharghar, Navi Mumbai, Maharashtra and offers Degree Course – Bachelor of Homoeopathic Medicine & Surgery (B.H.M.S), Post Graduate Course – MD (Hom) & PhD courses to go ahead for collaborative research with first party.

Background

In 2007-08 RRI (H), Navi Mumbai undertook a collaborative Drug Proving Research project with CMP Homoeopathic Medical College & Hospital, Vile Parle, Mumbai when the Institute was in the vicinity of the said college but due to some technical issues the project was discontinued. On 24.08.2008 review of the project was done, and the reviewing committee suggested to explore the feasibility to restart this project in the institute with other possible options. In 2011 when the institute shifted to Kharghar, Navi Mumbai, Dr. K. C. Muraleedharan, Assistant Director (H)/Officer In-charge of the institute at that time, met Dr. P.P. Page, Principal and Dean of Y.M.T. Homoeopathic Medical College and Hospital to explore the possibility to restart this project at their college. In pursuance of this, the Institute received a letter from the Principal of the said college vide letter no. YHMC/827/2011 and the project was re-initiated in

June 2012 with YMT HMC-H & PGI, Kharghar, Navi Mumbai after the competent authority accepted the proposal, vide F.No. 5-14/2011-12/CCRH/DP-Centre/-799 dated 02/04/2012.

Purpose

To conduct Homoeopathic Pathogenetic (drug proving research) Trials in collaboration with the college.

As per the Council's mandate of 'Linking Research with Education' RRI (H), Navi Mumbai and YMT HMC-H & PGI are desirous to develop their academic/research links, in the field of Homoeopathy, under the principles of mutual understanding and common interest, mutually complementing other activities, to promote Homoeopathic Drug Proving Research using facilities and expertise at both organisations. Therefore, both the parties agreed to entering in an MoU for working and cooperating with each other and using their respective expertise, knowledge and resources for the Drug Proving Research Programme.

This agreement shall become effective immediately upon signature by both the parties for the period of 10 years initially, which may be extended if both the parties agree.

ROLES & RESPONSIBILITIES

5.1 Regulatory Committees:

At the CCRH Headquarter level:

The protocol (and any amendments) will be placed for approval of:

1. Ethical committee of CCRH
2. Special Committee for Drug Proving of CCRH
3. Scientific Advisory Board of CCRH

A 'data safety management board' may be constituted by the Director General CCRH for proving of new/non-pharmacopoeial drugs, responsible for supervision of drug proving of new/non-pharmacopoeial drugs.

At the level of Nodal office of Drug Proving at CCRH Hqrs.:

Coordinator - Dr. Pritha Mehra, Research Officer (H), CCRH Hqrs., New Delhi

The records received in the Homoeopathic Pathogenetic Trial Portal from the drug proving center will be scrutinized, coding of the drug and provers, preparing and providing coded drugs, compilation of the proving data and drafting of manuscripts, books and monographs related to the drug proving studies will be done by the team at the Nodal Office and the Site investigator (Proving Master).

At each study centre

A Drug Proving Committee is being constituted at each Drug Proving research centre involving faculty from the colleges and scientists at the research centre. The committee comprises of 5-6

members responsible for conduct of the study, enrollment & safety of participants, data collection & data integrity, etc.

Drug Proving Committee*:
A 'Drug Proving Committee' constituted by the Principal of Homoeopathic Medical College and has been duly approved by the Director General, Central Council for Research in Homoeopathy, New Delhi, dated 06.01.2025 which will supervise the Drug Proving Research trials undertaken at the institute. This Committee consists of the following members:

Chairman	Dr. (Mrs.) Seema Dandge, Principal, YMT Homoeopathic Medical College & Hospital
Programme Officer	Dr. R. S. Bawaskar, 'In-charge' of Institute of the Council shall be the convener
Members **Special invitee**	Dr. (Mrs.) S.M. Bhagwat, HOD Dept. of Materia Medica, YMT Homoeopathic Medical College & Hospital Dr. Supriya Bazaz, Asstt. Professor, Dept. of Anatomy, YMT Homoeopathic Medical College & Hospital Dr. (Mrs.) N.S. Menon, Professor, Dept. of Materia Medica, YMT Homoeopathic Medical College – Hospital
Site investigator/ Proving Master	Dr. Birendra Singh Rawat, R.O. (H)/S-3, RRI (H), Navi Mumbai
Site co-investigator/ Proving Associate'	Dr. Neelam Wayal, Asstt. Professor, Dept. of Materia Medica, YMT Homoeopathic Medical College & Hospital. She will be closely associated with the Proving Master in day-to-day activities of the Drug Proving Project.

* If any member of the Committee retires or transferred or ceases to hold the post, he/she will be replaced by the successor with intimation to the Director General, CCRH.

Functions of the Drug Proving Committee

1. The committee will meet once in a month during Drug proving to: -
   i) Scrutinize the data recorded by the Provers, Proving Master/Proving Associate.
   ii) Scrutinize the records of Pre-trial Medical Examinations (PME) carried out in the beginning of trial, Terminal Medical Examinations (TME) carried out at the conclusion of the trial and any other additional investigations or examinations carried out during the period of the trial.
   iii) Finalize/approve the proving data in respect of each coded drug.
2. The 'Proving Master' will submit all relevant records to the Drug Proving Committee.
3. In-charge of the Institute will forward the Proving data, approved by the Committee, to the Nodal Officer/Coordinator of the Drug Proving Programme.

Dandge

5.2 Study Team

At CCRH/Headquarters

Mentors:

Dr. Subhash Kaushik, Director General, Central Council for Research in Homoeopathy, New Delhi

Dr. Sunil S. Ramteke, Deputy Director General, Central Council for Research in Homoeopathy, New Delhi

Principal Investigator:

Dr. Pritha Mehra, Research officer (H)/Scientist-3, Central Council for Research in Homoeopathy, New Delhi

At Study Site/Research centre (Institute of CCRH)

Site investigator/Proving Master:

Dr. B. S. Rawat, Research officer (H)/Scientist-3, RRI (H), Kharghar, Navi Mumbai

Site co-investigator/Proving Associate:

Dr. Neelam Wayal, YMT Homoeopathic Medical College & Hospital

Supporting staff:

Dr. Pranali Bhalerao, SRF, RRI (H), Navi Mumbai

MODALITIES OF COLLABORATION

The responsibilities of the YMT HMCH & PGI and schedule of fulfilment thereof shall be as per the guidelines of CCRH. CCRH will provide the financial assistance based on the project.

The execution of the project will be monitored by Director General, CCRH or Coordinator of the Project at CCRH Hqrs. Site monitoring visit and a workshop for provers and concerned staff shall be conducted by the Coordinator of the Project from time to time, as and when required. There will be a Data Monitoring Committee (DMC) for the PROJECT. The DMC shall consist of Scientists nominated by CCRH. The DMC shall review (as per requirement) the progress of the PROJECT.

The outcome of the Project will be evaluated by the special committees.

Financial Support and Sponsorship:

CCRH shall bear the financial inputs under its Collaborative Research Study for the Study titled "HOMOEOPATHIC PATHOGENETIC TRIAL OF DRUG CODE: A MULTICENTERIS RANDOMIZED DOUBLE-BLIND PLACEBO CONTROLLED TRIAL" as agreed based on the approved study and to be implemented by PI and Co-PIs of CCRH and YMT HMC-H & PGI

Financial Support: CCRH will provide financial support for the concerned staff and contingencies-recurring and non-recurring as approved for the project and duration of study as per defined protocol.

The approved budget for this study is distributed under following heads:

1. Honorarium for Proving Associate – Rs.5000/month
2. Honorarium for the conventional system Consultants - Rs.4000/visit (maximum 12 visits in a month)
3. Proving allowance for the provers/participants - as incidental charges for their traveling to the study site - Rs.90/visit or maximum Rs 1500/month
4. Half Day sitting allowance to the Drug Proving Committee chairman and members – Rs. 2000/month on the condition if he/she is not a central or state Govt. employee
5. Outsourced investigations preferably at CGHS rates.

The rates may change as per the government orders or approval of the IFC of the Council.

This agreement is witnessed as follows:

Article I. Duration and Termination of the MoU

1. This MoU is effective from the date of signatures by the authorities of the Research Institute of Homoeopathy and YMT Homoeopathic Medical College – Hospital & PG Institute, Navi Mumbai, and shall be valid from the date of execution by the Parties and shall remain in effect initially for **TEN YEARS**, and thereafter can be renewed.

2. The MoU may be amended at any time by written mutual consent of both parties.

3. This MoU may be terminated by either party by the provision of written notice of termination not less than six months prior to the desired termination date. However, both parties agree that the Drug Proving research project, and training to students' obligations to scientists, funding bodies or other entities are met in full subsequent to the notice of termination.

4. The termination of this MoU shall not affect the rights or obligations of either party regarding any binding offer or firm obligation approved and agreed to by either party prior to the termination date.

5. In the event of any disputes arising between the parties here, it shall be the endeavor of both parties to first try to resolve the dispute amicably by mutual discussion and deliberation, failing which the dispute shall be referred to Arbitration under the provisions of Arbitration & conciliation Act, 1996.

6. The courts at Delhi will have exclusive jurisdiction to adjudicate the disputes between parties.

7. Force Majeure:

YMT Homoeopathic Medical College & Hospital, Kharghar, Navi Mumbai shall not be liable to perform its obligations under or arising out of this contract if, such failure results from any force major, like act of God, fire, industrial disputes, labour trouble, transportation embargo, the existence of any state of Emergency, war, war-like conditions, civil commotion, riot, inability to obtain any material, imposition of sanction and/or any measures taken by the Govt. what so ever which render it impossible or impracticable for the second party to perform its obligations under this contract.

8. The original document shall be retained by the first party and the Second Party shall retain the duplicate.

Article II- Miscellaneous

1. If any provision of this MoU is held by any court or other competent authority to be illegal, void or enforceable in whole or in part, this Memorandum shall continue to be valid as to the other provisions therefore and the remainder of the effected provision.
2. Nothing in this MoU constitutes or is to be construed as a party, as a partner, agent employee or representative of the other party. A party must not act independently of the other party and does not have the right or power to commit the other party on any matter or incur any obligation on behalf of or pledge the credit of the other without the prior written approval of the other party.
3. The parties agree to comply with all laws applicable within the jurisdiction of the signatories below.

RESULTS OF PROJECT

The intellectual property, i.e. copyright, data generated in the collaborative project shall be owned by the CCRH. The CCRH will bear all the expenditure involved in patent procedures. The outcome of the Project is the sole property of CCRH, and it has full rights to transfer the outcome to any Industry of its choice. If the results of research are to be legally protected, the results should not be published without action being taken to secure legal protection for the research results.

IN WITNESS Whereof the parties hereto have executed this MoU or caused it to be executed in their names and on, their behalf by their duly authorized representatives on the date set forth.

Industry Clinical Trial

CHARAK PHARMA PVT. LTD.

Regd. Office : 21, Evergreen Industrial Estate, Shakti Mills Lane, Off Dr. E. Moses Road, Mahalaxmi, Mumbai - 400 011
Tel. : 022-66846600 / 24965256 / Fax : 022-24938215 / Email : charak@charak.com / Website : www.charak.com
CIN : U24230MH2000PTC127072

Date: 6/12/2024

TO WHOM IT MAY CONCERN

This is to certify that Dr. G.D.Pol Foundation YMT ayurvedic medical college has successfully conducted the clinical trial of Dipya Digestive Care syrup.

The study Title with Open Labelled clinical study of Charak Digestive Care Syrup in the management of Amlapitta

CTRI Reg. No CTRI/2023/12/060576

CRO & Clinical Site – Dr G D Pol Foundation YMTAMCH Kharghar

Final Report Submitted on 29 August 2024 prepared by Dr G D Pol Foundations YMTAMCH Kharghar

Total Fund received By CRO Till date for the trial is Rs 2,65,500/-

Principal Investigator – Dr Jai Kini (Professor- Rognidan Dpt.)

Co-Investigator – Dr Viraj Kelkar (Assistant Professor- Agadtantra Dpt.)

No of Patients – 30

Conclusion –

Dipya Digestive Care Syrup produced Significant reduction in all the parameters assessed after one month of treatment in Blenching, Heartburn, Heaviness, indigestion, loss of appetite and bloating.

No adverse events were reported by any patient. Rest of the detailed analysis is mentioned in the final report submitted on 29 August 2024.

For Charak Pharma Pvt Ltd

CHARAK PHARMA PVT. LTD. WORLI MUMBAI

This is to certify that Dr. G.D. Pol Foundation YMT Ayurved Medical College and Hospital has successfully conducted and completed the clinical trial of with Dr. Vaidya's T. Pilocare and Pilocare ointment in collaboration with Herbolab.

Title: To Evaluate the Efficacy and Safety of Piles Care Tablet and Pilocare ointment in the management of Haemorrhoids

CTRI No.: CTRI/2023/07/055576

CRO and clinical site: Dr. G.D. Pol Foundation YMT Ayurved Medical College and Hospital

Final report submitted : 19/07/2024

Principal investigator: Dr Jai Kini

Co-investigator: Dr Varsha Tangade

Number of patients: 60

Conclusion: This clinical study shows T. Piles care is effective in Pain at anal region, burning at anal region, size of haemorrhoids, P/R bleeding, constipation, straining and colour of haemorrhoids. T. Piles care with pilocare ointment is more effective than T. Piles care alone to reduce burning sensation at anal region, pain at anal region, size of haemorrhoid, straining during defecation and redness of haemorrhoids.

T. Piles care or Pilocare ointment has no effect on discharge and position of haemorrhoids.

Hence it can be concluded that T. Piles care with pilocare ointment is useful in relieving symptoms of uncomplicated haemorrhoids of 1st, 2nd degree.

As adverse drug reaction was not observed in any patient, it can be considered as the drug is safe for adult patients.

E-mail: care@drvaidyas.com

CRO and Clinical Site:
Prepared By
Yerala Medical Trust's Ayurveda Medical College & Research Centre
Kharghar, Navi Mumbai.

Study Type: Open-labelled Interventional Clinical Trial

Objective: The Primary objective of this study is to Evaluate the Efficacy of Piles Care Tablet + Pilocare ointment in Haemorrhoids

Participants: 60 patients with Heamorrhoids.

Results This clinical study shows T. Piles care is effective in Pain at anal region, burning at anal region, size of haemorrhoids, P/R bleeding, constipation, straining and colour of haemorrhoids. T. Piles care with pilocare ointment is more effective than T. Piles care alone to reduce burning sensation at anal region, pain at anal region, size of haemorrhoid, straining during defecation and redness of haemorrhoids.

T. Piles care or Pilocare ointment has no effect on discharge and position of haemorrhoids.

Conclusion T. Piles care with pilocare ointment is useful in relieving symptoms of uncomplicated

haemorrhoids of 1st, 2nd degree.

Title :

To Evaluate the Efficacy and Safety of Piles Care Tablet and Pilocare ointment in the management of Haemorrhoids

Open Label, Prospective, Randomized, Comparative, Two Arm Clinical Study to Evaluate and compare the Efficacy and Safety of Piles Care Tablet and Pilocare ointment or Piles Care Tablet alone in the management of Internal Haemorrhoids.

Rationale:

Published data on the effectiveness and safety of Piles care tablet and pilocare ointment is not available, documented evidence complimenting the positive clinical experience is required. So the study conducted.

Primary Objective:

The Primary objective of this study is to Evaluate the Efficacy of Piles Care Tablet + Pilocare ointment in Haemorrhoids

Secondary Objective:

The secondary objective of this study is to Evaluate the Safety of Piles Care Tablet + Pilocare ointment in Haemorrhoids

1. **Primary Endpoint:**
   - A. Size of Piles Mass from baseline to end to treatment
   - B. Period of straining during passing stools
   - C. Amount of bleeding per rectum
   - D. Relief from perianal itching
   - E. Relief from perianal Burning sensation
   - F. Relief from Per rectal Pain or Discomfort
   - G. Relief from constipation
   - H. Position of piles
   - I. Relief from mucous Discharge from stool
   - J. Colour of piles changing to normal pink

2. **Secondary Endpoint:**
   - a. Changes in Laboratory Safety Parameters (CBC, LFT,KFT) from baseline to end of the study. (Only If reports are available)
   - b. Change in Vital signs from baseline to end of therapy.
   - c. Assessment of Adverse Events and the Serious Adverse Events in all the enrolled Study Participants.

Methodology:

Inclusion criteria

For inclusion in the study, Study Participants must meet ALL of the following criteria.

Male or Female Study Participants aged between 18 to 50 years, inclusive, at the first time of signing of the informed

consent.
Completed the screening process within 3 days prior to Randomization.
Study participant has understood and signed the informed consent form to participate in the study.
Study participant willing to be available for the entire study period and to adhere to protocol requirements as evidenced by signing informed consent document.
Study participant should be diagnosed with st nd degree internal or external piles.
Study participant willing to abstain from use of vitamin or mineral supplements, nutritional supplements and or medical foods if applicable.

Key exclusion criteria	Study Participants must not enter the study if ANY of the following exclusion criteria is present: Reports any presence or history of a clinically significant disorder involving the cardiovascular, respiratory, renal, urologic, hepatic, immunologic, endocrine, or neurologic system(s) or psychiatric disease as determined by the investigator(s). Systolic blood pressure less than 100 mmHg or more than 140 mmHg. Diastolic blood pressure less than 60 mmHg or more than 90 mmHg. Minor deviations (2-4 mmHg) may be acceptable at the discretion of the investigator. Pulse rate below 60 beats/minute or above 100 beats/minute. Reports smoking of more than 5 cigarettes/day, use of more than 4 packets/day of tobacco products or use of nicotine products (patches, gums, etc.) corresponding to more than 5 cigarettes/day or who are unable to abstain from smoking during the participation in the study. Reports a history of drug or alcohol addiction or abuse within the past 1 year. • Alcohol abuse defined as consumption of ≥21 units/week • One unit of alcohol equals 500 mL of beer; 200 mL of wine; or 50 mL of spirit Reports history or presence of hepatitis B surface antigen, hepatitis C antibody or HIV antibody Reports a clinically significant illness other than Hemorrhoids during the 30 days prior to randomization (as determined by the investigator(s)). Reports a history of allergic response(s) to the active ingredient or related drugs. Reports a history of clinically significant allergies including food or drug allergies. Use of any prescription drug therapy or over the counter (OTC) drugs 14 days prior to receiving the first dose of study.

Approximately 60 Study Particpants randomized in a 1:1 ratio (Piles Care Tablet and Pilocare ointment : Piles Care Tablet) in this study (30:30).

Study Particpant randomized into Piles Care Tablet and Pilocare ointment and received 2 tablets twice daily orally after food with local application of Pilocare ointment before and after defecation for 28days.

Group A: T. Pilocare 2 tablets twice in a day after food with Pilocare ointment twice in a day application at anal region., for 28 days.

Group B: Only T. Pilocare 2 tablets twice in a day after food, for 28 days.

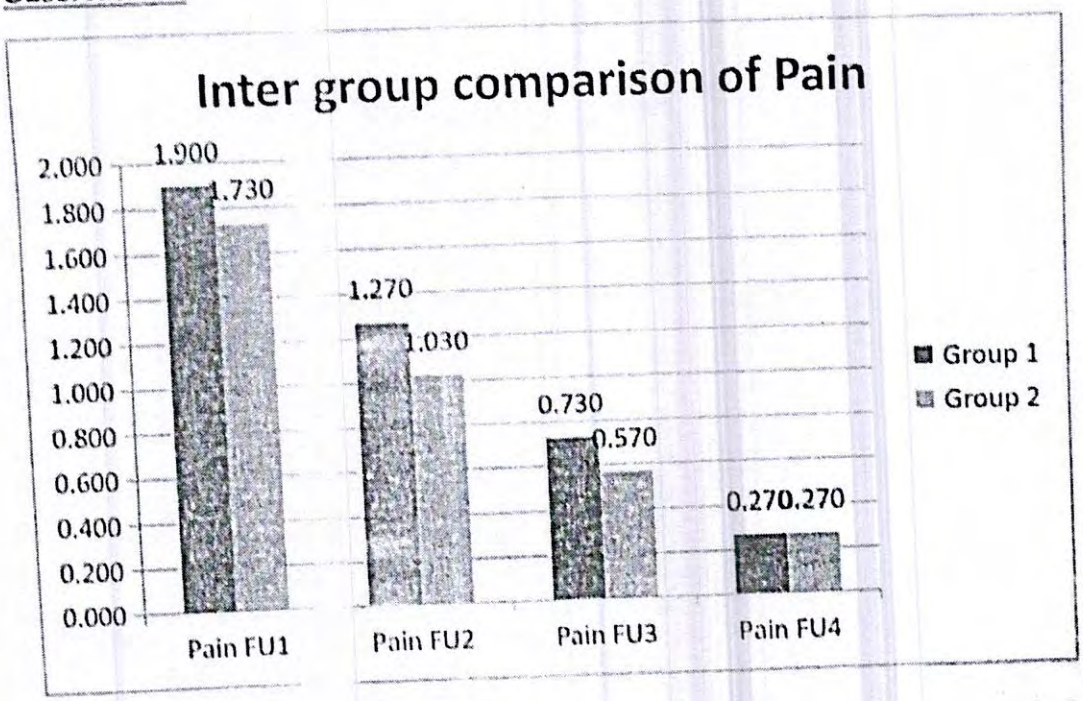

Followup will be taken on 7th, 14th, 21st and 28th day of study.

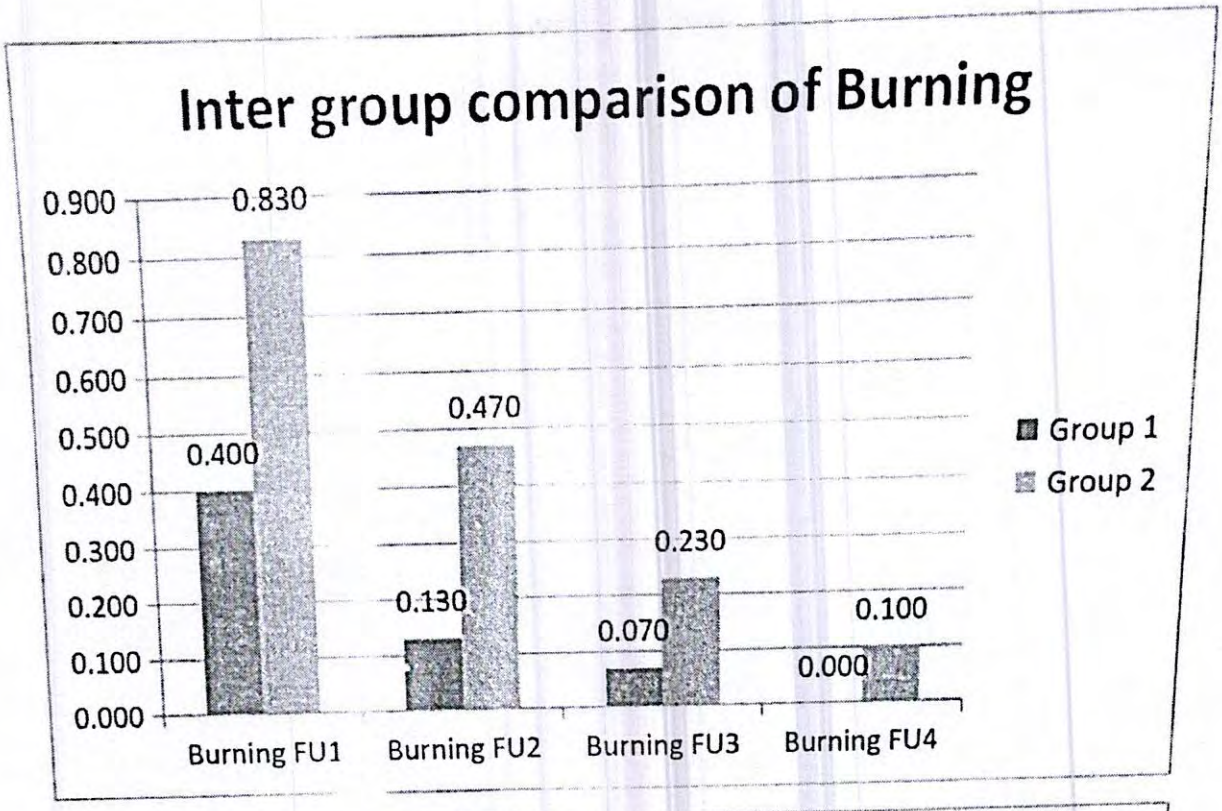

Study Participants randomized into Only Piles Care tablet group received two tablets twice daily after food for 28 days.

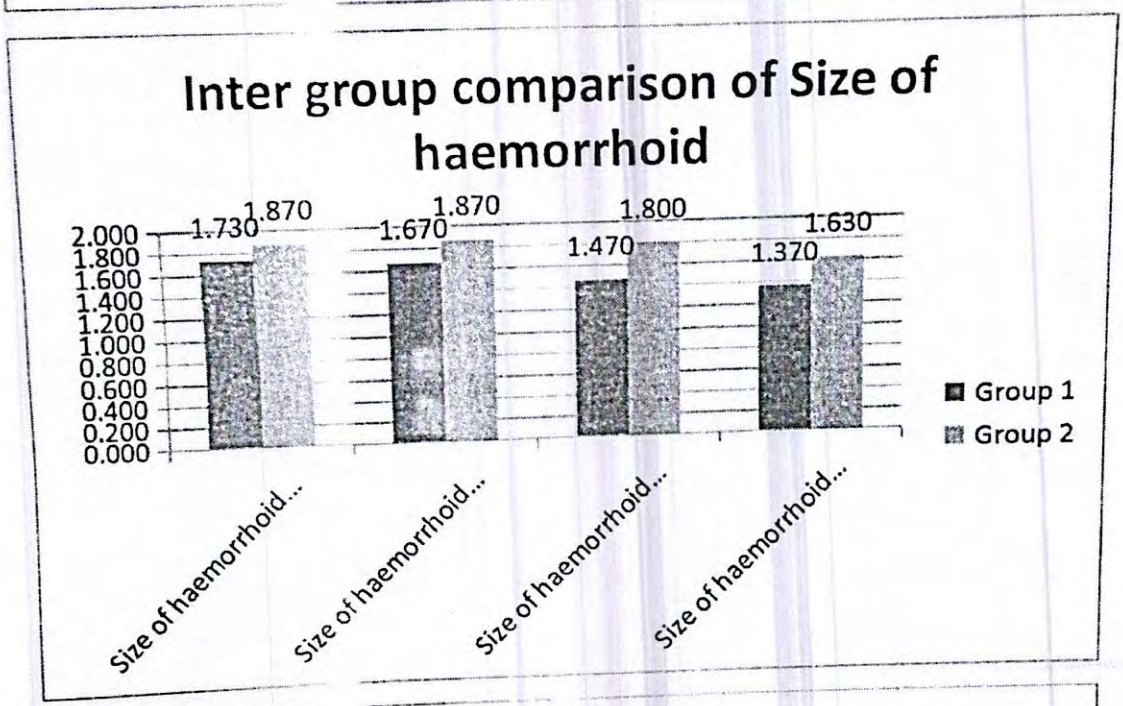

This study was conducted in accordance with Good Clinical Practice (GCP) including archiving of essential documents, AYUSH Guidelines and New Drugs and Clinical Trial Rules, 2019.

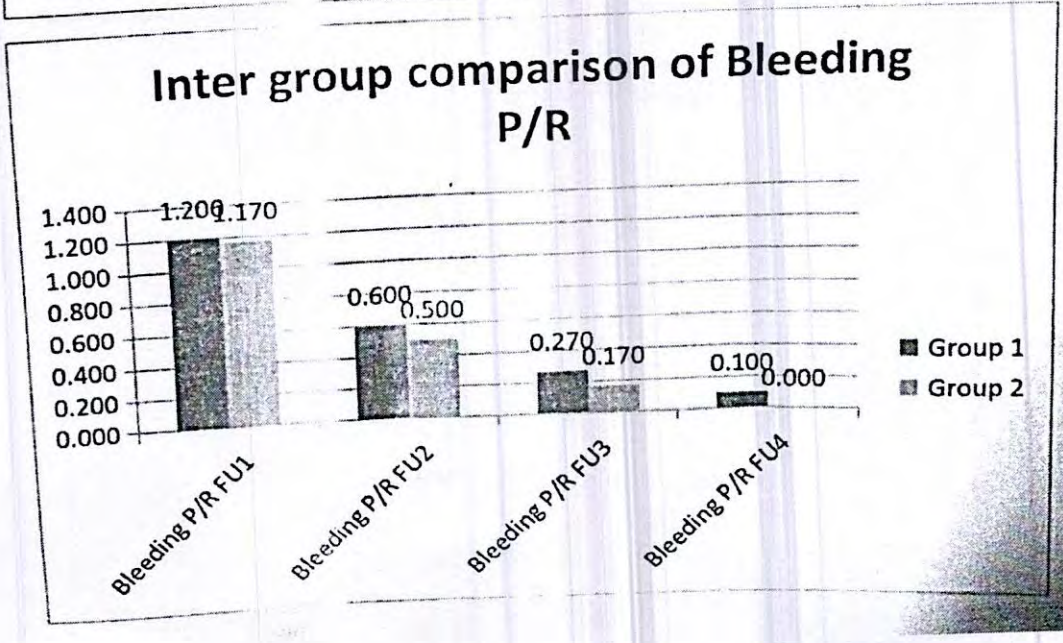

Safety was assessed will include monitoring and recording of the =AE)=/ SAE for each study participants.

Results:

Group 1 results:

There was a statistically hi ignificant difference seen for the values between the time intervals (p<0.01) for the variables t at anal region, burning at anal region, size of haemorrhoids, P/R bleeding, constipation, stra and colour of haemorrhoids. Highly significant values seen after 1st follow up.

There was a statistically w nificant difference seen between the groups (p>0.05) in all 4 follow ups for the variables discl and **position of haemorrhoids.**

Group 2 results:

There was a statistically highly significant difference seen for the values between the time intervals ($p<0.01$) for the variables **Pain at anal region, burning at anal region, size of haemorrhoids, P/R bleeding, constipation, straining and colour of haemorrhoids.**

There was a statistically **non significant** difference seen between the groups ($p>0.05$) in all 4 follow ups for the variables **discharge** and **position of haemorrhoids**

Inter group comparison:

Group 1 has statistically significant results between the groups ($p<0.05$) for symptoms –

Pain	**Straining**
Burning	**Colour of piles**
Itching	

There was a statistically non significant difference seen for the values between all the pairs of time intervals ($p < 0.01, 0.05$)

Size of haemorrhoid	**Bleeding P/R**
Discharge	**Position of piles**
Constipation	

Discussion:

T. Piles care and pilocare ointment is effective in relieving symptoms like Pain at anal region, burning at anal region, size of haemorrhoids, P/R bleeding, constipation, straining and colour of haemorrhoids.

T. Piles care alone is effective in relieving symptoms like Pain at anal region, burning at anal region, size of haemorrhoids, P/R bleeding, constipation, straining and colour of haemorrhoids.

Discharge at anal region and position of piles does not get significantly affected by both group of treatment. It means T. piles care alone or in combination with pilocare ointment is not effective to reduce discharge or position of piles.

T. Piles care in combination with pilocare ointment is significantly effective in pain, burning, straining, itching, colour of piles than T. Piles care alone.

But T. Piles care in combination with pilocare ointment and T. Piles care alone are similarly effective to reduce symptoms like size of haemorrhoids, bleeding P/R, constipation.

Adverse drug reaction was not observed in any patient

Probable mode of action:

T. Piles care has contents like Nimb, Nagkeshar, Mocharas helps to reduce Pittadushti. Hence reduces symptoms like P/R bleeding, size of haemorrhoid. Also colour of haemorrhoid changes from reddish to pink. Contents like Triphala Guggula, Chitrak reduces inflammation. Hence it helps to reduce pain and swelling. Nishottara, Aragvadha, surana helps in regulating bowel movements and relieves constipation.

Pilocare ointment has contents Lajjalu, Daruharidra, Khadir, Yashtimadhu which acts as antimicrobial, Raktastambhak, wound healing and reduces local inflammation. These contents reduces burning sensation due to Pittavriddhi. Contents like Kumari, apamarga kshar, kasisadi taila, Nimbataila, Camphor, Yashad Bhasma, Shuddha Tankan helps to reduce swelling and size of haemorrhoid. Hence pain at anal region reduces. Shuddha tankan and Nimbataila reduces itching,

Also application of ointment before passing stool reduces friction and straining.

Hence pilocare ointment has added efficacy on burning, pain, straining at anal region.

This clinical study shows T. Piles care with pilocare ointment is more effective than T. Piles care alone to reduce burning sensation at anal region, pain at anal region, size of haemorrhoid, straining during defecation and redness of haemorrhoids.

T. Piles care helps in reducing constipation as well Pilocare ointment helps more in burning and straining.

Very few patients had discharge at anal region and it was unaffected by above medicines. Discharge may be due to some other pathology so not relieved with study drugs. Also position haemorrhoids not affected with study drugs as most of the haemorrhoids were at primary positions of 3,7 and 11 o'clock.

Conclusion:

This clinical study shows T. Piles care is effective in Pain at anal region, burning at anal region, size of haemorrhoids, P/R bleeding, constipation, straining and colour of haemorrhoids. T. Piles care with pilocare ointment is more effective than T. Piles care alone to reduce burning sensation at anal region, pain at anal region, size of haemorrhoid, straining during defecation and redness of haemorrhoids.

T. Piles care or Pilocare ointment has no effect on discharge and position of haemorrhoids.

Hence it can be concluded that T. Piles care with pilocare ointment is useful in relieving symptoms of uncomplicated haemorrhoids of 1st, 2nd degree.

As adverse drug reaction was not observed in any patient, it can be considered as the drug is safe for adult patients.

Sub: - Approval of Research Grant of Short Term Research Grant (STRG) 2019-20.
Ref.:- Application of Miss. Aaliya Firdos Inamdar, dt. 05/11/2019 for STRG

Dear Sir/Madam,

With reference to above subject and your application for STRG cited at reference, this is to inform you that the proposal for Short Term Research Grant scheme for academic year 2019-20 of Miss. Aaliya Firdos Inamdar, research grant has been sanctioned for **Rs. 12,000/- (Rupees Twelve Thousand Only)** for Research Topic: **Assessment of Saamavastha With Special Reference To Urine Examinaton.** It may be noted that the sanctioned grant for the research will be released only after completion of research by the concerned student.

She may initiate her research work and send the project completion report within stipulated time one year. **The duration of short-term research is SIX months & may be extendable up to ONE year with justified reasons. The student will utilize the amount of research grant towards the expenses incurred for materials and consumables procured for completing the project only.**

The student is expected to present her interim/final research observations in the MUHS State Level Research Conference and submit the research manuscript by e-mail to **hsr@muhs.ac.in** for publication in MUHS Health Science Review.

Research Grant will be released to the bank account of your institute after acceptance of final project report of completed research and its approval by the University scrutiny committee.

You are requested to monitor expenses incurred by the student for research. The utilization certificate, statement of expenditure duly certified by registered CA and hard as well as soft copy of Dissertation within 03 months after receipt of grant by email to urd@muhs.ac.in & muhsurd@gmail.com must be submitted through you by the concerned student.

ACCEPTANCE LETTER BY THE RESEARCHER (STRG/ LTRG)

Name of Researcher: **SANAP ANAGHA AMARESH**

Category: **Student**

Name of College: **YMT Ayurved Mahavidyalaya, Kharghar, Navi Mumbai**

Title of the project: **COMPARATIVE STUDY OF NUTRITIONAL PROFILE OF NAVNEET(BUTTER) DERIVED FROM MILK OF COW, BUFFALO AND GOAT.**

1. The research project is not being supported by any other funding agency.
2. The terms and conditions related to STRG / LTRG are acceptable to the Principal Investigator and College Institute.
3. At present, I have no other research project approved by MUHS, Nashik
4. Applicant's date of birth is: **06-06-1997**
5. Certified that the Researcher will be Teacher/ bonafide Student of the College for at least next one year.
6. Duration for STRG is 06 months & LTRG is 01 Year
   a) If the time limit is not followed the researcher will return the funds received to the University. Otherwise he/she is liable for disciplinary action.
   b) The College takes the responsibility of receiving the research grants, disbursing them to the researcher, submitting the reports/accounts/utilization Certificate within time and arranging for recovery of release funds if the researcher defaults in submitting periodic reports/final reports/accounts utilization Certificate
7. We will share the research findings in Research Conferences organized by MUHS.
8. We will publish the research manuscript in MUHS Journal/peer reviewed indexed journal.
9. We will acknowledge the support rendered by the University and inform to the University if the research is published elsewhere.

Sub: - Approval of Research Grant of Long Term Research Grant (LTRG) 2019-20.
Ref.:- Application of Dr. Seema Chandrakant Mehre dt. 05/11/2019 for LTRG

Dear Sir/Madam,

With reference to above subject and application for LTRG cited at reference, this is to inform you that the proposal for Long Term Research Grant scheme for academic year 2019-20 of Dr. Seema Chandrakant Mehre, research grant has been sanctioned for **Rs. 1,00,000/- (Rupees One Lakh Only)** for Research Topic: **To Study The Efficacy of Shatapushpa Regimen In Artav Vyapat. W.S.R. to Anovulatory Cycles.** It may be noted that the sanctioned grant for the research will be released only after completion of research by the concerned teacher.

She may initiate her research work and send the project completion report within stipulated time of one year. **The duration of long-term research is ONE year only & may be extendable up to one more year with justified reasons. The teacher will utilize the amount of research grant towards the expenses incurred for materials and consumables procured for completing the project only.**

The teacher is expected to present her interim/final research observations in the MUHS State Level Research Conference and submit the research manuscript by e-mail to **hsr@muhs.ac.in** for publication in MUHS Health Science Review.

Research Grant will be released to the bank account of your institute after acceptance of final project report of completed research and its approval by the University scrutiny committee.

You are requested to monitor expenses incurred by the teacher for research. The utilization certificate, statement of expenditure duly certified by registered CA and hard as well as soft copy of Dissertation within 03 months after receipt of grant by email to urd@muhs.ac.in & muhsurd@gmail.com must be submitted through you by the concerned teacher.

Patents:

Application number & Names	Application dates	Title
1. Application No: 202221034761 **(Dr Saloni Mistry HOD-Department of Prosthodontics)**	Application Date: 17/06/2022 Patent no. 564364 Date of issue:: 28/03/2025	Title of the invention: a process and method for preparation hydrogels for prosthodontics to a new dimension in implantology and therefore.
2. Application no: 202321059450A **(Dr. Manjiri Deshmukh –Reader-Dept. of Public Health Dentistry)**	Application date: 05/09/2023 Publication date: 13/10/2023	System of evaluation of a linear radiographic grid system made up of OHP
3. Application No: 202421048392 A **(Dr. Rizwan Sanadi-Professor- Dept. of Periodontology)**	Application Date: 24/06/2024 Publication Date: 02/08/2024	Title of the invention: Vitamin C as a Treatment Method For Prevention of Gingival Repigmentation After Laser Depigmentation
4. 421849-001 **(Dr. Manjiri Deshmukh – Reader-Dept. of Public Health Dentistry)**	Application Date: 01/07/2024 Date of issue: 22/08/2024	Title: Digital Toothbrush The novelty resides in the shape and configuration of "DIGITAL TOOTH BRUSH" As illustrated.

Department of Musculoskeletal Physiotherapy

Research topics of MPTh 2023- 24

S.NO	NAME OF THE STUDENT	NAME OF THE GUIDE	TITLE OF THE STUDY
1.	Rajshri Chikate	Dr.Ezhil Mathi	Effect of graded motor imagery on pain, range of motion and kinesiophobia in patients with adhesive capsulitis: A Randomized control trial.
2.	Sanjyot Hande	Dr.Rincy Sibi	Effect of foot core strengthening versus short foot exercise on pronated feet in female kathak dancers: A Randomized clinical trial.
3.	Rinkal Kate	Dr.Amit Ambulkar	Effects of retro treadmill walking versus movement with mobilization on pain and functional ability in patellofemoral pain syndrome in the adult population: Randomized clinical trial
4	Hiba Yasar	Dr.Amit Ambulkar	Compare the effectiveness of neurodynamic sliding technique versus muscle energy technique on hamstring tightness for improving flexibility and stretch tolerance among young adults: A Randomized clinical trial.
5.	Sujata Nair	Dr.Amit Ambulkar	Effectiveness of the scapular PNF technique along with Maitland mobilization versus scapular PNF technique along with Kaltenborn mobilization in adhesive capsulitis: A Randomized Controlled trial
6.	Kanchi Ranawat	Dr.Ezhil Mathi	Comparing the effectiveness of Suboccipital Muscle Inhibition Technique with or without PNF stretching of hamstrings on
7	Pranav Sawant	Dr Rincy Sibi	Effectiveness of Injury Prevention Exercise Program Strategies of Lower Limb in Improving Sports Performance in Amateur

S.NO	NAME OF THE STUDENT	NAME OF THE GUIDE	TITLE OF THE STUDY
1.	Drashti Bhavsar	Dr.Shardha	Effect of mirror therapy on hand grip strength, wrist range of Motion, and Spasticity in children unilateral spastic cerebral palsy: A Randomized controlled trial.
2.	Sakshi Gadhave	Dr.Shardha	Effect of Proprioceptive Training on Upper Limb Motor Function and Spasticity in Subacute Hemiplegic Patients: A Randomized Controlled Trial.
3.	Shraddha Jayaswal	Dr.N.Ramesh	Effectiveness of vestibular Training to Improve Visual Attention and Visuospatial Memory among Children with Developmental Dyslexia: Pre-post-intervention Study
4.	Kanchan Pawar	Dr.N.Ramesh	Effectiveness of Dynamic Surface Training to Improve Balance and gait in chronic hemiplegic patients: A Randomized controlled trial.
5.	Arwa Sidhpurwala	Dr.N.Ramesh	The Effectiveness of Cervical Proprioceptive Neuromuscular Facilitation Technique on Dominant Hand Function, balance, and Gait in Individuals with Parkinson's Disease: Randomized Control Trial
6.	Shruti Virani	Dr.Shardha	Effectiveness of dual-task training versus task-oriented training on balance and gait in chronic hemiplegic patients: A Comparative study.

INTERDISCIPLINARY RESEARCH REPORT

TITLE OF THE STUDY –

Effect Of Yogic Practices and Meditation in Stress Management Of 1st Year Undergraduate Students of Health Science Educational College.

DESCRIPTION OF STUDY –

Health science educational students are always under stress due to many factors. If students feel stressed at the beginning of their academic career, it may lead to a decrease in their study performance. Fear of failure and adjustment to a new environment may lead to severe depression and suicidal tendencies in some students. Hence, early identification of their problems and necessary interventions targeting the alleviation of modifiable stressors might result in a less stressful academic life for these students. This will help in good academic performance and ultimately decrease depression and suicidal tendencies in students. This study aims to investigate the effect of various yogic practices and meditation on stress management among 1st-year students of a health science educational college.

Aim: To study effect of yogic practices and meditation in Stress management of 1st year undergraduate students of health science educational college.

Objectives:

1. Primary:

Assess the effect of different Yogic practices and meditation in stress management of 1st year undergraduate students of health science educational college.

2. Secondary:

Compare the level of stress after doing yogic practices and meditation between two groups.
Study the probable stressors in 1st year undergraduate students of health science educational college

Material & Methods:

Place of Study: YMT Ayurvedic Medical College & Hospital, Kharghar

Ethical consent: Institutional Ethic Committee

Study Design: Non-Randomized non- controlled study

Study Population: 1st year undergraduate students of BAMS, BHMS, BDS, BPTH, Nursing of Dr. G.D. Pol Foundations YMT Ayurvedic Medical College & Hospital, Kharghar, Navi Mumbai.

Sample size: 185

Status: Data Collection is completed from physiotherapy participants post interventions.

Assistant Investigators from YMT College of Physiotherapy

Research Innovation and Ecosystem

A strong research culture is central to the academic and clinical excellence for us. At our institution, the **Research Innovation and Ecosystem** is designed to foster curiosity-driven inquiry, evidence-based practice, translational research, and interdisciplinary collaborations that contribute to the advancement of physiotherapy science and community health.

1. Institutional Research Vision

The college prioritizes creating a sustainable ecosystem that promotes:

- Clinical and translational research to improve patient care
- Interdisciplinary studies integrating physiotherapy with medical, engineering, and social sciences
- Community-based participatory research to identify local health challenges
- Development of innovative rehabilitation protocols and assistive technologies

2. Research Capacity Building

- **Research Committees:** A dedicated Institutional Research Committee (IRC) and Ethics Committee oversee research activities, ensuring compliance with ethical norms and scientific standards.
- **Faculty Development:** Regular workshops and FDPs on research methodology, evidence-based practice, grant writing, and data analysis tools (SPSS, R, etc.) are organized.
- **Student Involvement:** Undergraduate and postgraduate students are encouraged to take up **Short-Term Studentship (STS)** projects under ICMR/MUHS and contribute to national/international conferences.

3. Infrastructure & Resources

- **Research Labs:** Equipped with advanced tools for biomechanics, exercise physiology, neurophysiology, and cardiopulmonary assessment (EMG, VO2max analyzers, spirometry, etc.).
- **Digital Access:** Full access to databases like **PubMed**, **ScienceDirect**, and e-consortiums (MUHS Digital Library, EBSCO).
- **Plagiarism Check Tools:** Tools like Urkund or Turnitin ensure originality and academic integrity.
- **Funding Support:** Provision for seed grants and travel grants to support research presentations and publications.

4. Innovation in Research

- **Innovation Cell:** An in-house innovation cell encourages ideation, patent development, and collaborative projects.
- **Rehabilitation Technology Development:** Joint projects with engineering institutions for assistive device innovation such as low-cost orthotic aids, posture correction devices, and telerehabilitation platforms.
- **Case Study Repositories:** Development of department-wise clinical case banks to aid research and learning.

5. Interdisciplinary and Collaborative Research

- **Intra and Interdepartmental Research:** Joint projects between departments like neuro, cardio-respiratory, musculoskeletal, and community rehab foster a holistic understanding of patient needs.
- **External Collaborations:** MoUs with hospitals, rehabilitation centers, and universities (national & international) support collaborative research, internships, and technology transfer.

6. Knowledge Dissemination

- **Annual Research Day:** A platform for students and faculty to present posters, papers, and case reports.
- **Publications:** Faculty and students regularly publish in peer-reviewed journals indexed in Scopus, PubMed, and Web of Science.
- **Student Journal Club:** Regular presentations and discussions on current research help inculcate critical appraisal skills.
- **Workshops on Meta-analysis & Systematic Reviews** are conducted for postgraduate students.

7. Community-Based Research

The ecosystem emphasizes **translational and impact-driven research** targeting:

- Lifestyle diseases, geriatrics, women's health
- Ergonomics for local industries and occupations
- Outcome studies on rural rehabilitation and home-based physiotherapy
- Disability mapping and policy-level recommendations for government programs

8. Achievements & Impact

- Faculty have received **grants from ICMR, MUHS, UGC**, and other funding agencies.

- Innovations and case studies have been presented at **WCPT, IFOMPT**, and various national platforms.
- Development of **standardized clinical outcome tools** tailored to Indian populations.

Conclusion

The research innovation ecosystem in our college is dynamic, inclusive, and oriented toward the future of healthcare. It not only nurtures scientific temperament but also empowers students and faculty to become thought leaders and problem solvers in the physiotherapy domain. By aligning with national research priorities and global trends, the institution remains committed to creating impactful contributions to health science and rehabilitation.
